Sourcing & Production Service Management

At GBL, we understand that every brand has a unique story to tell, and we pride ourselves on translating your vision into tangible, high-quality goods that stand out in today's competitive market. Whether you have a specific design in mind or require assistance in conceptualizing a collection, our dedicated team is ready to collaborate closely with you to bring your ideas to life throughout the development, sourcing, manufacturing, and fulfillment process.

The Process

- ① Design & Development
- ② Pre-production Sampling
- ③ Production Sourcing
- ④ Global Logistics

Custom Design & Product Development

We believe in the power of exceptional craftsmanship, and our long-standing partnerships with vendors underscore our dedication to delivering nothing short of excellence. Our goal is to not only meet but exceed your expectations, ensuring your brand's identity is not just showcased but celebrated through our bespoke creations.

Apparel Development

Bring your clothing visions to life with our expertise, crafting everything from hoodies to T-shirts.

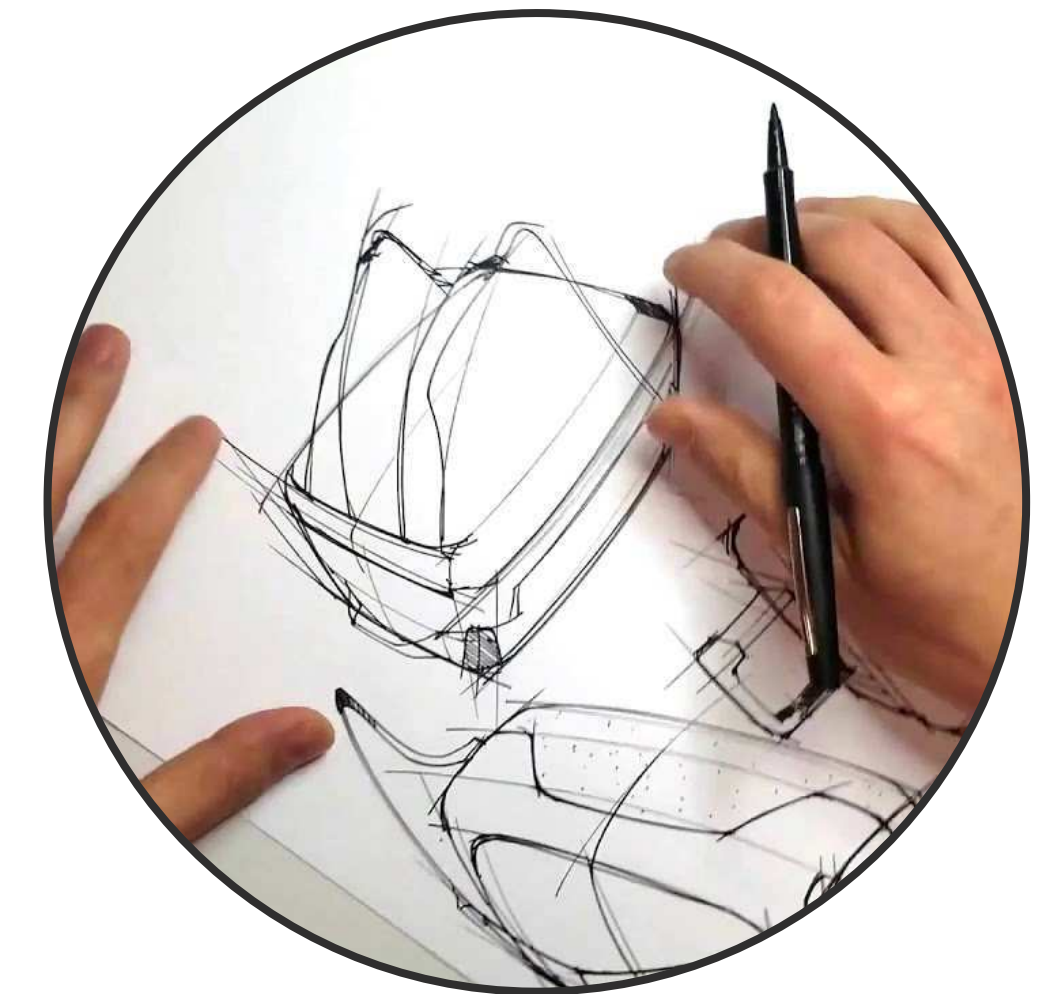

Fashion Accessories

Curated fashion accessories, specializing in everything from headwear to backpacks.

Packaging Expertise

Tailored solutions for your packaging needs, from corrugated boxes to retail-ready packaging.

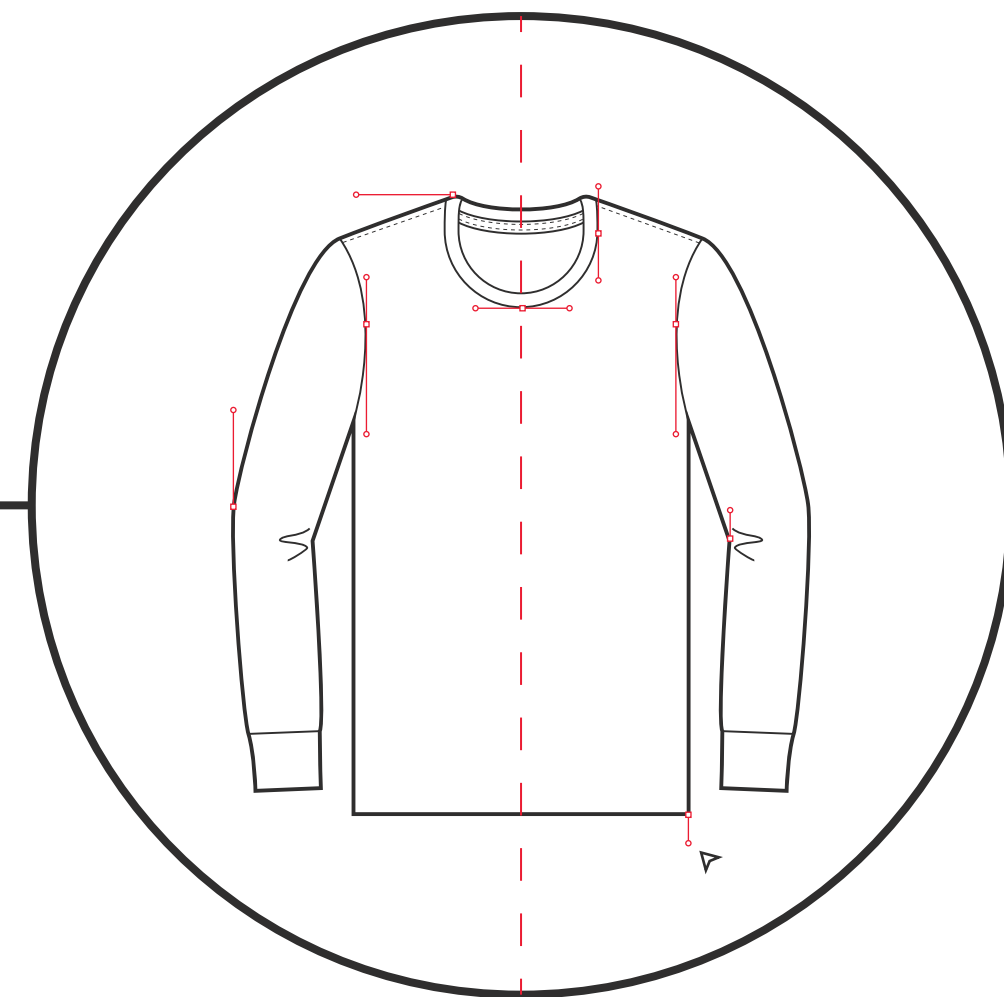

Your Unique Vision

Turn your visions into tangible reality with our dedicated team of designers and manufacturing capabilities.

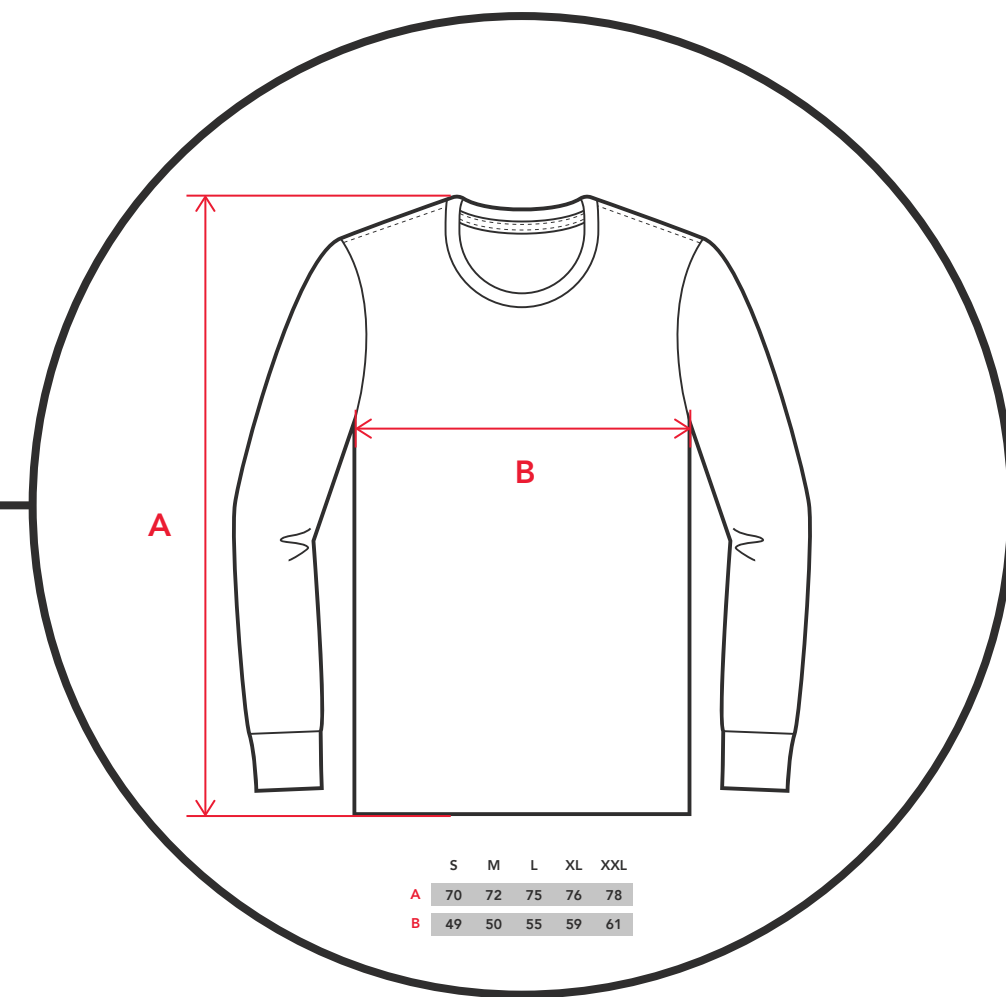

Domestic Blank

Whether you are looking to customize, adjust or recreate a domestic blank; we start at the source to capture the detail and nuance to your customer deserves.

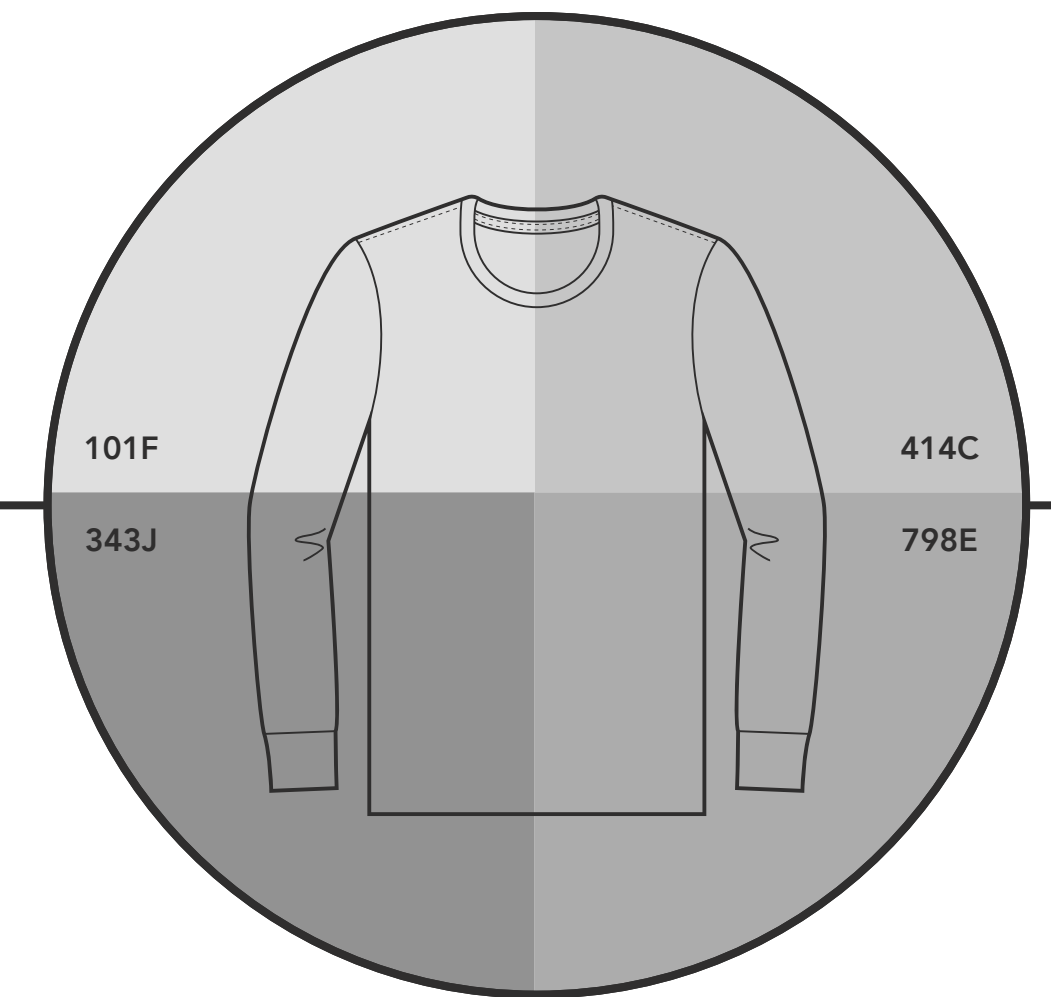

Digital Technical Pack

Next comes a digital tech pack, which includes custom cut & sew details including manufacturing instructions, measurements, sizing matrix, and dye color codes.

Customization & Adjustments

With a comprehensive tech pack, we can then customize or adjust any and all initial conceptual changes or customer requests that then can be sampled individually.

Pre-production Samples

With fully developed digital concepts, we then have all variations sampled and shipped for review and final approval.

*Samples subject to various lead and delivery times.

Color / Black / Crop Hoodie

LS12000 Crop Hoodie

Colors Available:

Domestic Blank

We can start with ANY blank as a fit-base or inspiration. Whether you have a particular blank in mind or need assistance in a comprehensive start-to-finish journey, we're here to help you discover the ideal garment that perfectly aligns with your project.

Digital Tech Pack

After selecting a starting platform, our dedicated team of digital developers will promptly commence crafting a comprehensive technical guide, covering every aspect of the manufacturing, sampling, and production processes. This guide ensures a seamless transition from concept to reality,

Customization & Adjustments

With a detailed tech-pack, explore visual renderings encompassing adjustments to fitment, sizing, and brand-specific elements like labels, logos, custom hardware, and colors, including photographic mock-ups and renders.

Pre-production Sample

This stage involves transitioning towards the creation of an in-hand working sample, providing a tangible platform to confirm and finalize all previously discussed pre-production points. Following this, we seamlessly initiate the processes of sourcing materials, finalizing pricing, and logistics management.

Pre-production Sampling

The pre-production sample functions as an initial prototype, materializing the entirety of the design and development process. It not only serves as a compelling sales sample but, more significantly, acts as a robust manufacturing platform. The parameters we establish at this crucial stage play a pivotal role in connecting our clients with optimal manufacturing options tailored to their specific project or product line.

Pre-production Sample

Following the selection of a domestic blank, the creation of the tech-pack, and necessary adjustments, the spotlight shifts to exploring garment dye options, refining fabric specs, and perfecting the fabric feel. Leveraging our extensive and reliable network of both domestic and international manufacturers, we initiate the development of a crucial pre-production sample.

GBL
PRE-PRODUCTION SAMPLE

Pre-production Sample

This stage will allow you to perfect your product prior to production. We focus on details such as:

- Fabric weight
- Wash shrinkage
- Graphics - Application/Process
- Labeling
- Overall production quality parameters
- And much more...

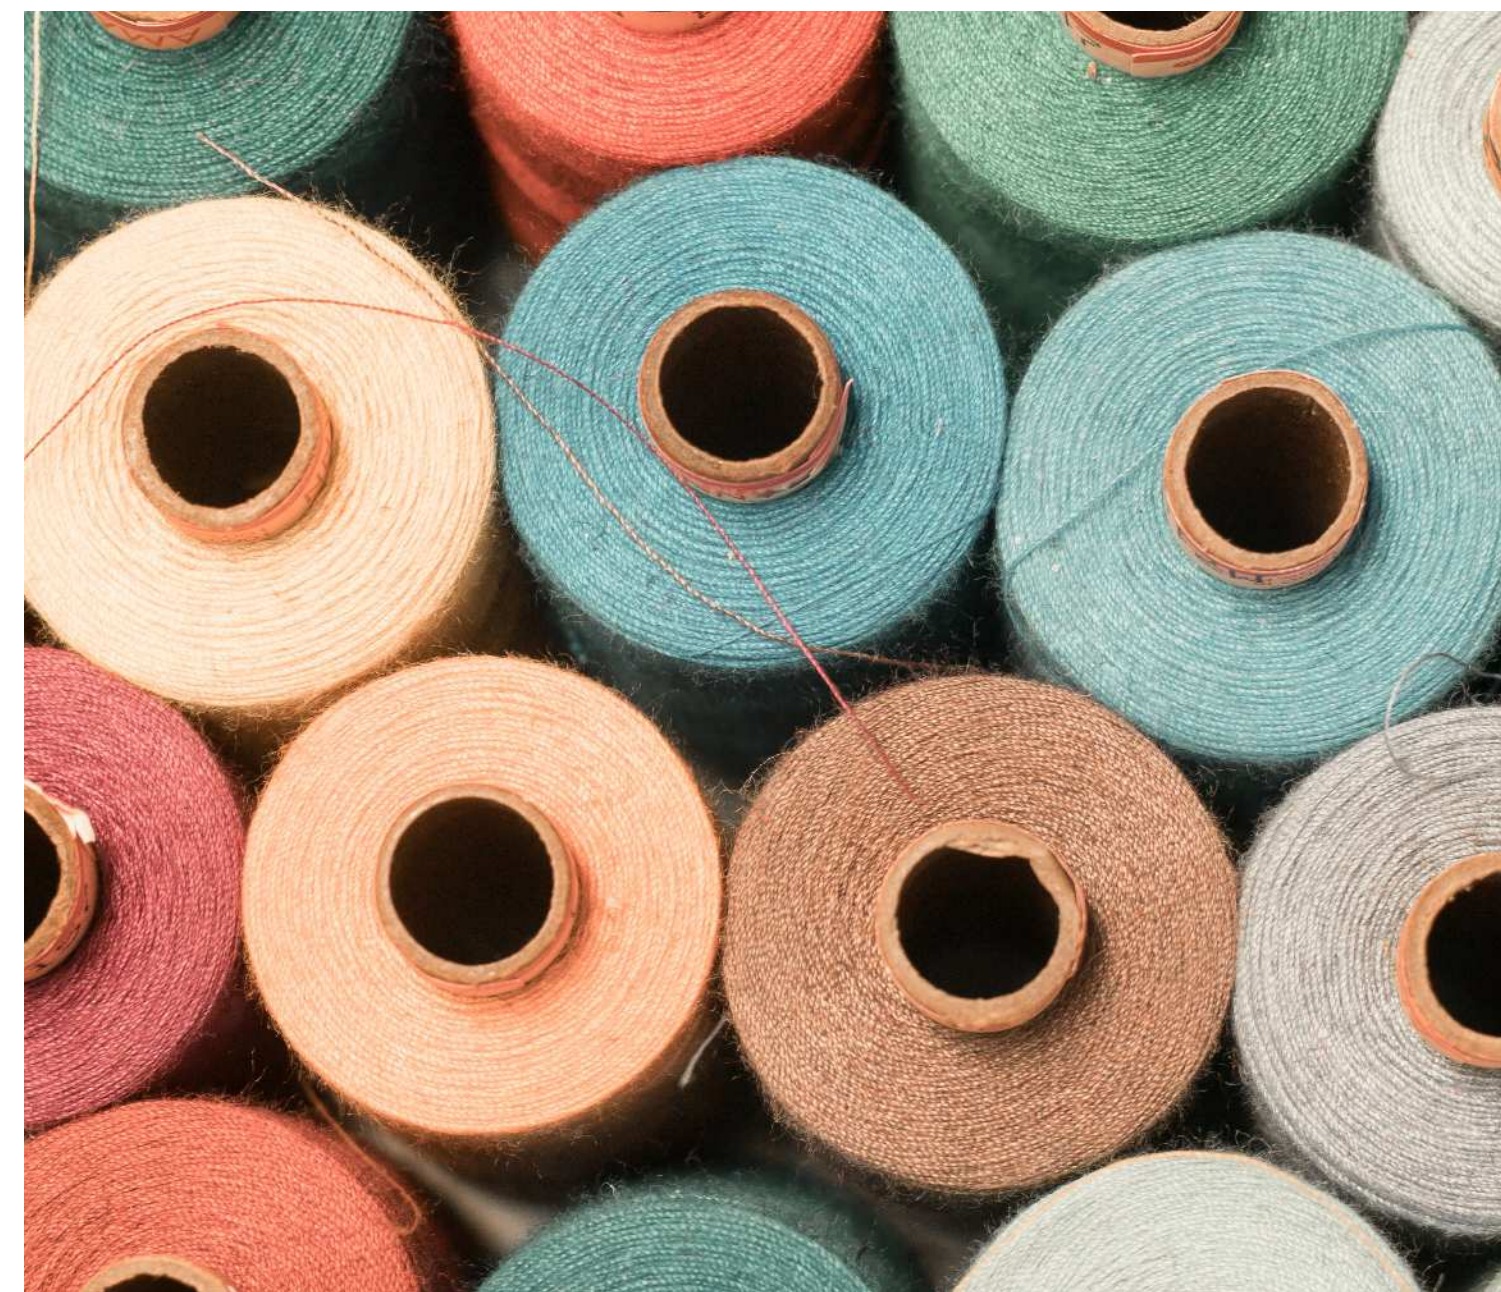

Production Sourcing

Whether the emphasis lies in unit cost, volume, customization, or meeting specific quality metrics, our commitment is to forge and facilitate a seamless journey from sampling to fulfillment. GBL's dedicated team of source-reps, coupled with our enduring network of relationships with both domestic and overseas manufacturers, empowers us to optimize your brand's operations comprehensively, from inception to fruition.

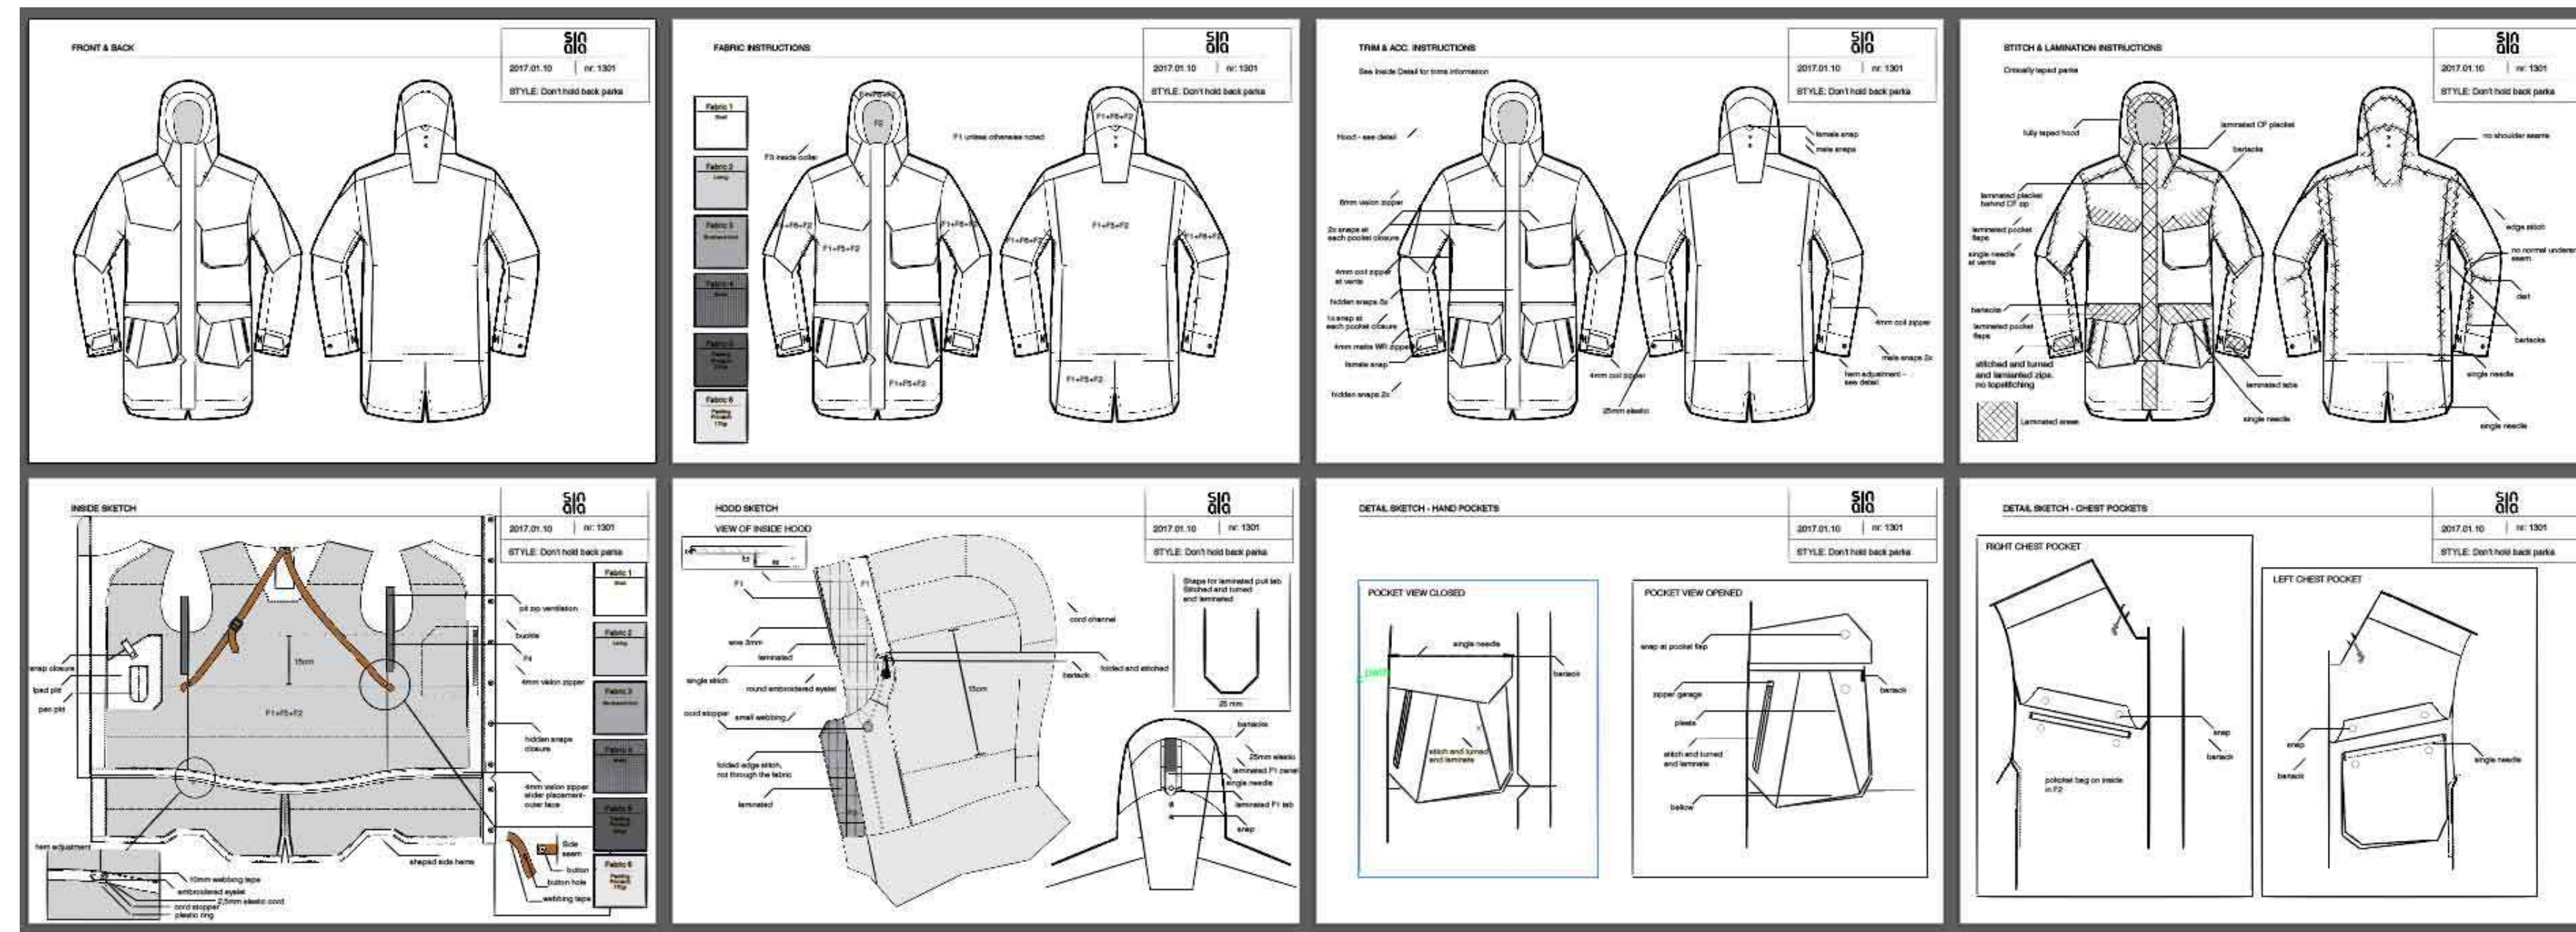

Source Values

At GBL, we consider Quality, Capabilities, and Cost as pivotal elements in selecting the right manufacturing partner for your project. Our commitment extends beyond mere production—trust in quality consistency and timely deliverables is paramount for effective quality assurance and streamlined logistics. Moreover, at the forefront of our manufacturing partnerships is a deep commitment to Social and Eco Responsibility.

Production Tech Pack

Upon identifying the most suitable manufacturer, we proceed to meticulously refine the production technical package for your product. This "tech pack" serves as the blueprint for the final garment, encompassing all technical specifications and design intricacies that render your product distinct. Essentially, it functions as a powerful tool facilitating communication between designers and manufacturers. The ultimate quality of the finished product is intricately tied to the precision and effectiveness of this communication.

A to Z Logistics

Beyond the realms of designing, sourcing, and production, ensuring the prompt, streamlined, and cost-effective arrival of our clients' products stateside is crucial for operational success. GBL excels in coordinating and facilitating comprehensive A to Z logistics plans, tailored to accommodate any quantity, facility, or location with precision and efficiency.

International Imports

GBL possesses the expertise and infrastructure necessary to adeptly manage all aspects of international imports, freeing our clients to concentrate on their core strengths and competencies.

Domestic Logistics

Our commitment extends to meticulously coordinating all aspects of domestic shipping logistics, ensuring a seamless journey from port to state.

Local Warehouse Storage

Our warehouse staff adheres to rigorous quality assurance protocols, ensuring that your goods are handled, stored, and shipped in accordance with the highest standards.
